

Medical Work and 2019 Conferences

Dr Serge has been involved in a training program for those doing surgery on children with harelip / cleft palates. This program has been organised by the university Hospital. In 4 days they did 51 cases. Serge leaves tomorrow for our hospital in Luanza (460 Km north) where the team of trainers will do a further 25 cases. I have attached a couple of photos for your interest. Please pray for safety in travel and good clinical results from this surgery.

Our teaching teams conducting Bible conferences in Angola and Katoka are doing well with large numbers of participants. These conferences finish on Sunday. The teams will then move on to the next two locations, Kisenge and Kolwezi. A fuller report on these conferences will follow.
