

Report from Fidele.

On Wednesday, July 10, 2019, the CDLA team consisting of 5 members headed to Chibambo for a bible teaching seminar (232 km from Lubumbashi). They arrived at CHIBAMBO village 12 km from KASENGA for a bible teaching seminar on the theme "LIVING THE GOSPEL". The activities began on Thursday 11th and ended on Sunday 12 July 2019.

Beginning with an attendance of 416 on the first day, the number reached 740 on the second day, Friday. participants came from 14 different chapels in our community from as far as 68km away. It should be noted that other Christian communities of the place were invited and took part in the activities.

The teaching went well and was appreciated by the participants for the quality of the teaching. The workshops were also very appreciated because of the active participation in the sharing of the word of God, especially with the contribution of women. We were thankful for the participation among the teachers of two young people André KAPWASA and Dieu-Bénil NKULU, whose ministry was appreciated by the committee of the leaders of the station. It gave them a model that motivated them in turn to train young people in the teaching of the word of God.

All this resulted in 27 people coming to faith in the Lord Jesus Christ and on Sunday, 102 people including the 27 new converts were baptised.

Finally, several interviews were held with the elders of the different chapels who wanted to meet our delegation for various concerns in the context of community development and it was in the afternoon of Sunday that the activities of the seminar ended, to great rejoicing by all.

Fidele NKULU
